DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 9-12, drawn to a specific high voltage paper roller arrangement.

Group II, claims 13-15, drawn to a specific vibratory hopper configuration.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

No such same or corresponding special features showing a technical relationship between the above mentioned claims can be recognized because the first invention aims at preventing the transmission of high voltages during blocking by means of electrical insulation while the second invention aims at improving transport of a paper web by means of vibrators or beaters.

Furthermore, the application does not indicate that the respective technical features of the different inventions would involve a common novel special property or technical effect.

3. A telephone call was made to Douglas Hanscom on 01/28/2003 to request an oral election to the above restriction requirement, but did not result in an election being

made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
